TRUTH MACHINE

Would you take a lie detector test with a room full of strangers?

Watch or be interrogated with real biometric sensors, as we seek out truth in a world of fake news and alternative facts.

The polygraph machine used to be regarded as a legal instrument, but today we think we can cheat. Let's see if your heart rate can lie as effectively as our leaders can.

TRUTHMACHINE is the multi award-winning social experiment from renowned techno trouble-makers, Counterpilot.

Preferred Touring Party

1x Performer

1x Director & Polygraph Operator

1x Technical Manager & Polygraph Operator

Schedule

Bump In: min. 6 hours – same day open

Bump Out: min. 4 hours

Max. 10 performances per day

Max. 6 performance days per week

Max. 50 performances per week

30 minute break halfway through daily performance schedule.

5-15 minute breaks between performances for technical reset and changeover.

Venue Requirements:

- The production requires a wheel-chair accessible room with minimum 6.5 x 5m flat floor space.
- Ability for complete blackout (masking to be pre-rigged if required).
- Ideal venue allows audience to enter and exit via different doors.
- Exclusive use of venue is required.
- Access to space 2 hours prior to performance for sound check / warm up.
- Min. 2x 240v power outlets.
- Air conditioning – if required.
- PPCA or other license for post-show music to be played outside of dramatic context following the performance.

Presenter to provide:

- 15x chairs (max. 550mm wide)
- 6x trestle tables (min. 1500mm l x 750mm w) with black cloths
 - Qty. varies based on size of tables to be provided by presenter.

COUNTERPILOT

TRUTHMACHINE is created by **Counterpilot**, an award-winning collective of interdisciplinary artists based in Brisbane, Australia. Together, we create interactive performance works, activating audiences with new technology, rich design, and transmedia storytelling. Counterpilot seeks to transform the familiar, juxtaposing rich fictional worlds against a backdrop of the everyday. By subverting real social circumstances, we co-opt our participants as authentic performers. In this way we are harnessing what we believe to be the most exciting thing about theatre - the live audience. Our works enable participants to observe themselves responding in real ways to hyper-real situations.

The core Counterpilot team is Nathan Sibthorpe (Writer & Director), Christine Felmingham (Technical Designer), and Mike Willmet (Sound Designer). Since 2015, we have produced more than twelve major works, in partnership with organisations including Metro Arts, Brisbane Powerhouse, Next Wave Festival, Brisbane Festival, Sydney Festival, Darwin Festival, Horizon Festival, La Boite Theatre Company, and Adelaide Fringe.

For our work *Crunch Time* (2018), we received the Lord Mayor's Award for Best New Australian Work at the 2018 Matilda Awards, and for *Adrift* (2022) we received the Judge's Award for Theatrical Innovation at the 2022 Matilda Awards. In its premiere presentation, *Truthmachine* (2019) received three awards at the 2019 Adelaide Fringe, including Best Interactive or Digital Work and the Hong Kong Tour Ready Award. According to the Age, "nobody else is making work quite like this" (Cameron Woodhead on Truthmachine, 2019).
